in September "A day at the grape harvest"
Will you be there?

in October "Harvest Festival"
With music and new wine

Our first task at the vineyard following the winter months has been to prune the vines. Meanwhile, our 2010 vintage is ageing on the fine lees and is now ready for bottling.

Our expectations for the grape harvest have been greatly surpassed. The 2010 vintage has a captivating aroma: Citrus notes, peach, cassis, as well as exotic components such as pineapple, kiwi and passion fruit, bewitch the nose with moderate alcohol levels of between 10.5 and 12.5 % volume alcohol.

The only sour notes are the small harvest and the additional costs related to this. We hope that you can understand the price adjustment for the 2010 vintage. The 2009 wines and those from previous years will, of course, remain at the same price. In response to demand, we have once again included the top-seller in the 1l bottle in our range for our private customers.

Perhaps we will see you at one of the many wine-themed events coming up this year. Our greatest pleasure would, however, be to welcome you to our vineyard: to get to know one another, the wines and us! We will make sure you have a good time, and our wine will too!

Best wishes,
Your Weingut Zimmerlin
